Frontend	React, Next.js, Vue.js, JavaScript, HTML5, CSS3, Tailwind CSS, Bootstrap, Ant Design
Databases	MongoDB, PostgreSQL, MySQL, Redis
Cloud & Tools	AWS S3, Google Cloud Storage, Git, Bitbucket, FFmpeg, Fabric.js, WaveSurfer
AI & Integrations	OpenAI, ElevenLabs, HeyGen, Sync.so, Rask.ai, Twilio, Pusher, Laravel Echo
Payments	Stripe, Paystack, Flutterwave, Razorpay

EXPERIENCE

Seraphic Infosolutions | Full Stack Developer

January 2022 – Present

- Develop and maintain production applications using Laravel/PHP, Node.js/TypeScript, React/Next.js, Vue.js, PostgreSQL, MySQL, and MongoDB.
- Build end-to-end features across APIs, databases, frontend interfaces, third-party integrations, background jobs, and business workflows.
- Work on AI media processing, sports gaming, payments, real-time communication, multi-role platforms, and enterprise SaaS products.
- Integrate external services including OpenAI, ElevenLabs, HeyGen, Sync.so, Rask.ai, Stripe, Twilio, AWS S3, and Google Cloud Storage.

Deftsoft Informatics | Web Developer

March 2020 – January 2022

- Developed web and mobile applications using Laravel/PHP, MySQL, JavaScript, jQuery, AJAX, Bootstrap, and Node.js.
- Implemented backend APIs, database workflows, payment integrations, authentication, and responsive frontend features.
- Worked on gaming, restaurant/food ordering, and online consultation platforms.

PROJECTS

Fameplay — AI Video Dubbing & Localization Platform

An enterprise SaaS platform for video translation, localization, AI voice generation, dubbing, and lip-synced video production.

Tech: Node.js, TypeScript, Express, MongoDB, Next.js, React, AWS S3, OpenAI, ElevenLabs, HeyGen, Sync.so, Rask.ai, FFmpeg

- Built AI-powered translation and dubbing workflows with human translation and proofreading stages.
- Integrated multiple AI providers for translation, voice cloning, video generation, and lip synchronization.
- Developed a custom browser-based video/audio editor using Fabric.js, FFmpeg WASM, WaveSurfer, and timeline components.
- Implemented multi-tenant RBAC, usage-based consumption tracking, translator productivity tracking, glossary support, and asynchronous job processing.

Fanup — Sports Gaming & Betting Platform

A sports gaming platform supporting contests, entries, leaderboards, brackets, player/team selections, prizes, and giveaway workflows.

Tech: Node.js, PostgreSQL, Sequelize, REST APIs, JavaScript, React, Git

- Developed contest, entry, leaderboard, ranking, prize, and giveaway functionality.
- Worked on multi-round bracket competitions, matchup progression, team swaps, and result calculations.
- Built and optimized database queries and backend workflows for high-volume contest and participant data.

Vidente — Online Advisory & Consultation Marketplace

A multi-role consultation marketplace connecting clients with advisors through appointments, chat, voice/video calls, payments, and wallet transactions.

Tech: Laravel 8, PHP 8, Vue 2, MySQL, Redis, Pusher, Laravel Echo, Twilio, Stripe, Sanctum

- Built appointment scheduling, real-time chat, Twilio voice/video consultations, notifications, and call-state management.
- Implemented Stripe payments, wallet top-ups, advisor withdrawals, transactions, disputes, ratings, and coupons.
- Developed admin and advisor portals and localized the platform across 25+ languages using Vue i18n.

EDUCATION

Bachelor of Computer Science & Engineering

Chandigarh University | 2016 – 2020
